

ECO CERTIFICATE GRÜNER PUNKT

By participating in our dual system
for recycling of sales packages, the company

Normfest GmbH
42551 Velbert

in 2018 contributed towards saving:

86 t CO₂ equivalents

17 t crude oil equivalents

56 kg phosphate equivalents

2,430 GJ primary energy

442 kg sulfur dioxide equivalents

The CO₂ saved corresponds to the amount produced if 2,296 passengers would take a round trip on the train from Düsseldorf to Schwerin (calculated through ecopassenger.org).

Recycling reduces greenhouse gases and as such is an important contribution towards climate protection. Der Grüne Punkt publishes its annual balance of environmental performance since 2001 which confirms this positive effect on the environment. The environmental performance balance is regularly reviewed by the experts from IFEU in Heidelberg.
